Welcome to our Homepage!

The Pohjanmaa Bothniaplain Oy vineyard was founded to produce a line of quality wines and spirits. Our product offering includes gifts, travel packages, and events. The Vineyard is located in the municipality of Veteli in Finland's Central Ostrobothnia region. Our concept was developed in the mold of European vineyard. As such, in the small village of Viiste, you will find a large, idyllic, and pleasant vineyard.

Tourism

The vineyard is one of the most popular travel destinations in the region. We offer a number of travel packages that we have created and developed in conjunction with partner companies within the region. The region's tourism continues to grow from year to year. Our premises can accommodate up to 500 people and we have a full alcohol license.

Events

Every year we take part in a number of events and shows, gaining a lot of experience in the process. Each year, there are new events popping up and we are always interested in attending new events and happenings within our industry.

Personal Gifts for Friends and Business Partners

The gift of wine or spirits is a personal and popular one. It is as much fun to give as receive. Gift packages can be tailored to your wishes. A variety of our special bottles and packaging are finding their way to homes and businesses all over Finland. We are very happy with the feedback we have received thus far!

Wines and Spirits

At least 75% of the ingredients used in our products come from Finland. As such, our products have the Joutsenlippu etiquette administered by Finfood, recognizing homegrown products. Some of our domestic ingredients include high quality berries and fruits, as well as aromatic, wild growing berries and herbs. Our product offering includes 14 wines, 9 liquors and schnapps. Our customers include connoisseurs,

restaurants and event organizers. Our liquors and schnapps are available in Finnish State Liquor Shops (Alko) and restaurants.

Opening Hours

Throughout the summer, our vineyard is open daily.

For visiting in the winter, we recommend that you check our hours of operation either on the internet page or via telephone.

Our History

In 1995, Finland entered the European Economic Association (EEA), enabling the free movement of people, goods, services, and capital. As such, Finland's long standing alcohol monopoly had to open itself to competition. Production of alcoholic drinks using domestic ingredients like berries, fruits, and herbs was authorized. Wholesale and retail selling of alcoholic beverages was allowed to a certain extent

Bothniaplain Oy was the first berry vineyard in Finland after the nation entered the EEA. The development of the vineyard and its product line was a process that took four years to complete. During this initial phase, the marketing and sales was restricted to direct sales from the vineyard. Since the end of the 1990's, we have begun to expand the reach of our product by attending numerous events in Finland throughout the summer. At the beginning of this decade, our focus has been on the sales of our business gifts. Additionally business with vendors such as Alko and restaurants has increased significantly.

The year 2005 also saw us reviewing our business strategy. Bothniaplain began to expand its horizons by entering the German market. The wines and spirits made from aromatic ingredients were well received in Germany. We were very pleased and have begun to develop an international marketing strategy. We took the first steps of this new strategy in the beginning of 2008

Our goal for the near future is to find a partner in Central Europe with whom we can cooperate in the area of production and sales.

News

02.02.2009

We were bowled over to the positive response to our products at the Berlin Christmas Market at the end of 2008. Our countryside wines and spirits made from berries and herbs were warmly welcomed in the world metropolis. First and foremost, our concoctions made from cloudberry, black crowberry, and cranberry were the most popular. Our Keinutahan liquor, made from birch shoots, was also a hit with the Berliners. Due to the positive experience, we will continue our expansion in Germany, this time around Berlin in the first half of this year.

Räyrinki, the location where our Vineyard is located, has been chosen as the filming location for a Finnish reality show that will air in the fall of 2009. During the taping of the show in the end of February and beginning of March, our Vineyard will be open daily. Normally our Vineyard is only open by reservation (min. 12 people) during the winter.

I have read recently in the Finnish press more and more articles about the improvements in the vineyard industry; hopefully things will continue to happen. In the future, I will update this page to keep you all informed about the life on the vineyard.

I wish everyone a great winter
Urpo
